CSS

Formatting Text with CSS

- Creating a Bold Text
- Creating an Italic Text
- Indenting Text
- Changing the Font
- Changing the Font Size
- Changing Text Alignment
- Changing Line Spacing
- Changing Color of Text
- Adding Background Color to a Text

Formatting Text with CSS

Indenting Text

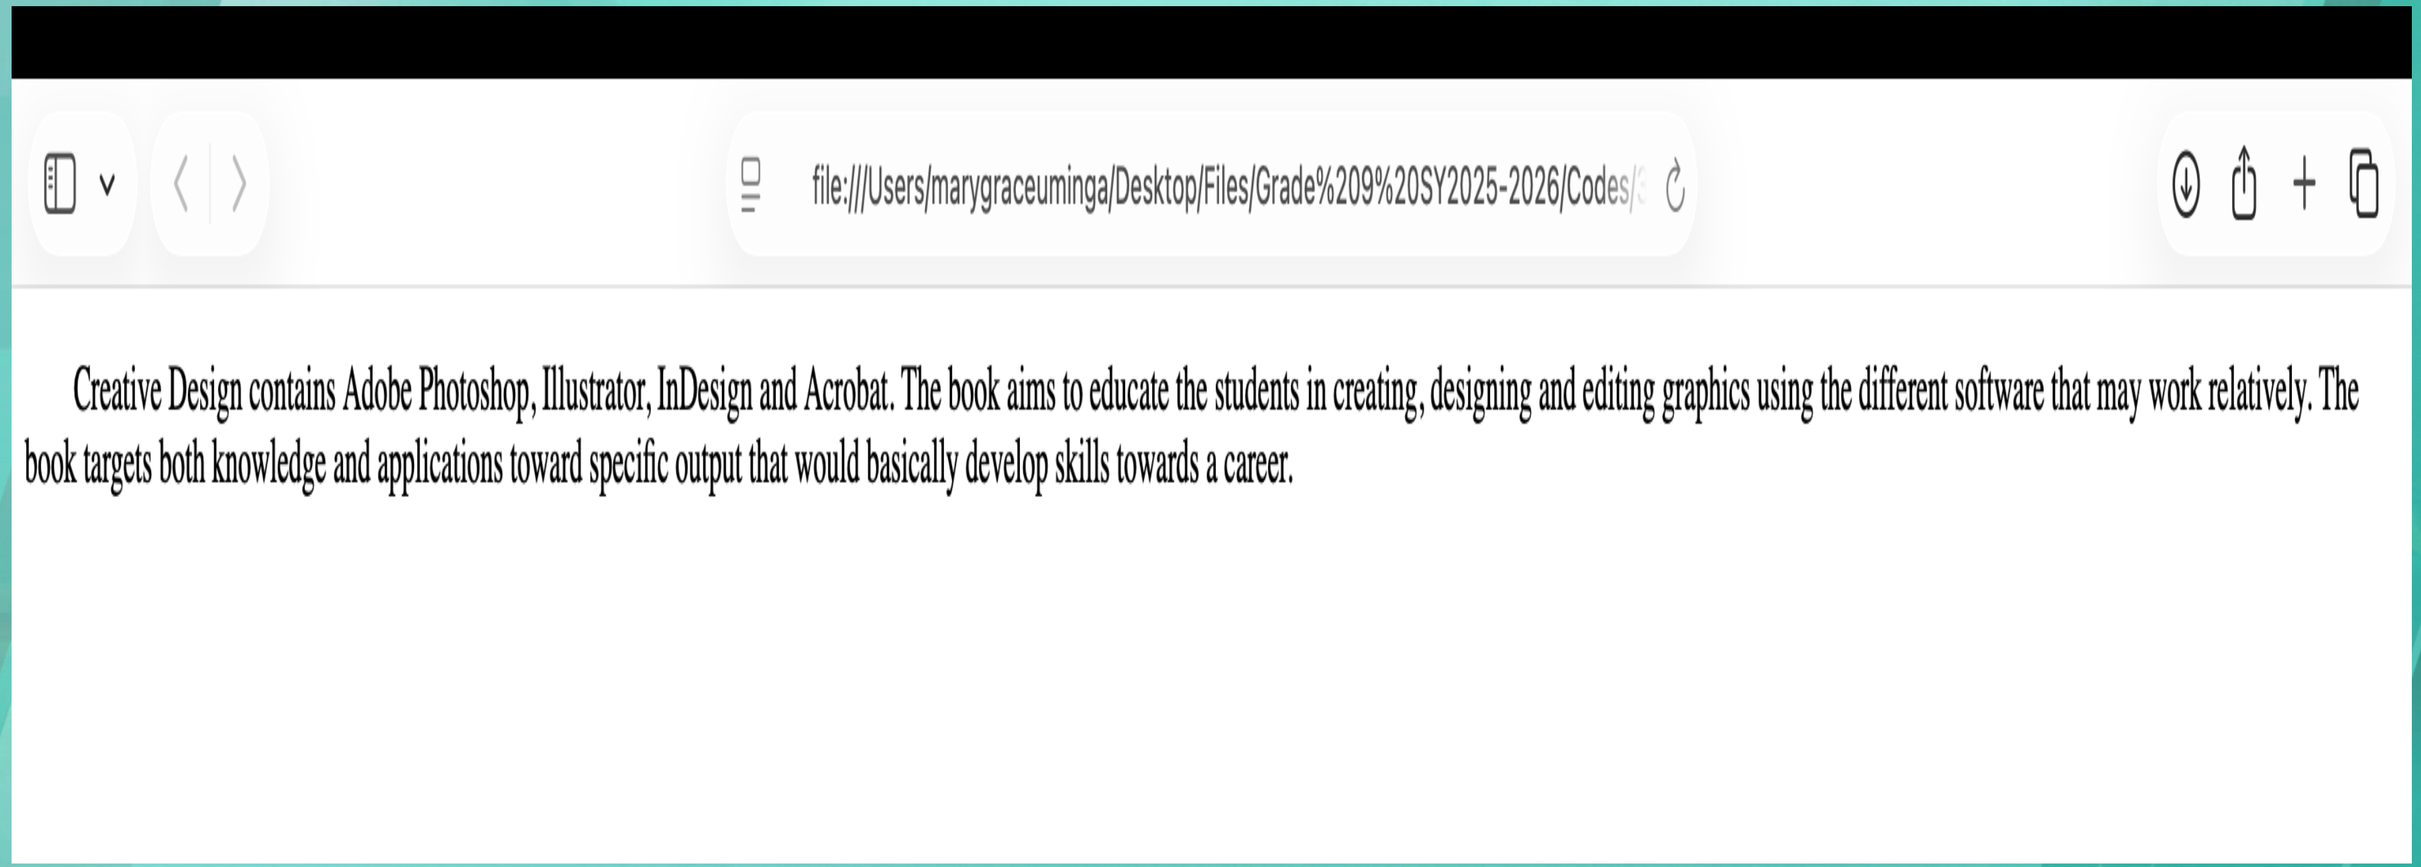
The first line of paragraph can be indented by using the ***text-indent*** property in CSS. Measurement of the indention can be in px, mm, cm, in, pt, pc, ex or em and in %.

indent.txt

```
<!DOCTYPE html>
<html>
<head><title>Indenting Text</title>
<link rel="stylesheet" href="indent.css" type="text/css">
</head>
<body>
<p>Creative Design contains Adobe Photoshop, Illustrator, InDesign
   and Acrobat.  The book aims to educate the students in creating,
   designing and editing graphics using the different software that
   may work relatively.  The book targets both knowledge and
   applications toward specific output that would basically develop
   skills towards a career.       </p>
</body>
</html>
```

indent.css

```
p{font-size:5; text-indent:30px;}
```



Formatting Text with CSS

Changing the Text Case

Change the text case by using the ***text-transform*** property in CSS. Text case can be specified as capitalize, uppercase, lowercase and none.

textcase.txt case.css

```
<!DOCTYPE html>
<html>
<head><title>Text Case</title>
<link rel="stylesheet" href="case.css" type="text/css">
</head>
<body>
<h2>Lazy John</h2>
<p>There was a boy named John, and he was the laziest boy
   in the entire town. One day, John saw their apple tree
   full of shiny red apples. He wanted to eat some but was
   too lazy to climb the tree. Instead, he lay on the grass
   and waited for the apples to fall down on their own. But,
   of course, the apples did not fall, and soon John was very,
   very hungry because he had not worked for his food.</p>
</body>
<html>
```

case.css

textcase.txt

```
h2 {text-transform:uppercase; text-align:center;}
p {font-size:4;}
```

LAZY JOHN

There was a boy named John, and he was the laziest boy in the entire town. One day, John saw their apple tree full of shiny red apples. He wanted to eat some but was too lazy to climb the tree. Instead, he lay on the grass and waited for the apples to fall down on their own. But, of course, the apples did not fall, and soon John was very, very hungry because he had not worked for his food.

Formatting Text with CSS

Changing Line Spacing

Change the line spacing using the ***line-height*** property in CSS.

linespacing

```
<!DOCTYPE html>
<html>
<head><title>Line Spacing</title>
<link rel="stylesheet" href="line.css" type="text/css">
</head>
<body>
<h1>Lazy John</h1>
<p>There was a boy named John, and he was the laziest boy
   in the entire town. One day, John saw their apple tree
   full of shiny red apples. He wanted to eat some but was
   too lazy to climb the tree. Instead, he lay on the grass
   and waited for the apples to fall down on their own. But,
   of course, the apples did not fall, and soon John was very,
   very hungry because he had not worked for his food.</p>
</body>
<html>
```

line.css

```
h1 {text-align:center; font-style:italic; font-weight:bold;}
p {font-size:5; color:purple; line-height:5;}
```

Lazy John

There was a boy named John, and he was the laziest boy in the entire town. One day, John saw their apple tree full of shiny red apples. He wanted to eat some but was too lazy to climb the tree. Instead, he lay on the grass and

waited for the apples to fall down on their own. But, of course, the apples did not fall, and soon John was very, very hungry because he had not worked for his food.

Formatting Text with CSS

Adding Background Color to a Text

Add a color behind a text without changing the page's background by using the ***background*** property in CSS.

backgroundcolortext.txt

```
<!DOCTYPE html>
<html>
<head><title>Color to a Text</title>
<style type="text/css">
h1{background:beige; color:red; font-weight:bold;
   text-align:center;}
body {background-color:blue;}
p{color:yellow}
</style>
</head>
<body>
<h1>No Man Is An Island – by John Donne</h1>
<p>No man is an island,<br>
Entire of itself,<br>
Every man is a piece of the continent,<br>
A part of the main.<br>
If a clod be washed away by the sea,<br>
Europe is the less.<br>
As well as if a promontory were.<br>
As well as if a manor of thy friend’s<br>
Or of thine own were:<br>
Any man’s death diminishes me,
Because I am involved in mankind,<br>
And therefore never send to know for whom the bell tolls;<br>
It tolls for thee.<br></p>
</body>
</html>
```

Color to a Text

No Man Is An Island - by John Donne

No man is an island,
Entire of itself,
Every man is a piece of the continent,
A part of the main.
If a clod be washed away by the sea,
Europe is the less.
As well as if a promontory were.
As well as if a manor of thy friendâ€™s
Or of thine own were:
Any manâ€™s death diminishes me, Because I am involved in mankind,
And therefore never send to know for whom the bell tolls;
It tolls for thee.
